"LITTLE JOKER" MAKES CITY LIABLE TO PAY LARGE SUMS TO NEW HAVEN RAILROAD

Enemies of City Line Find City Has Right to Establish Harbor Lines Without Compensating Upland Owners Abutting on Flats and Ask Endorsement of Council for Legislation to Compel Payments.

The last claim of the protectors of he government harbor line to be called in good faith was stripped from them today when a "little joker" was discovered in the amendments which are to be submitted to the council to-

This joker is the most innocent looking thing in the world. But it means this: The city of Bridgeport now has the right, received directly from the State of Connecticut, to establish harbor lines for the protection of navigation, without paying damages t

The city has the power to exercise the ghts over navigation that the State has in respect of harbor lines.

The passage of this amendment will compel the city to pay damages for the flats between the city line and the government line, some eleven acres. Here is the joker: It is entitled "An Amendment Relative to Hearing on the

Establishment of Harbor Lines." It "That section 58 of the charter of the city of Bridgeport be, and hereby is, emended by adding, after the words

fifty-seven." The proper title would be "An Amendment to Require the City of Bridgeport to Pay Damages to the New Haven Road Whenever the City Istablishes Harbor Lines." Sec. 54 of the charter gives the Common Council power to lay out high-

CITIZENS, READ THIS.

Here is the latest development in the effort to "Give" a large part of Bridgeport Harbor to the New York, New Haven & Hartford Railroad. It is a charter amendment. It looks innocent, but its passage will represent the most wicked betrayal of a public trust ever performed by the servants of the city. Read it carefully:

"That Section 58 of the charter of the city be amended by adding after the words, 'fifty-six,' in the said section, the words 'fifty-seven.' "

* This little joker means that the city of Bridgeport is asked to ask the Legislature to compel the taxpayers of Bridgeport to pay damages to the Railroad company.

Broken Stove Pipe Allows Coal Gas to Fill Apartments of Mrs. May Optenbrower.

Mrs. May Optebrower, who lives with her two sons, aged 15 and 10, at 588 Lafayette street, was taken to the Bridgeport hospital at 2:20 yesterday morning suffering from coal gas poisoning. Mrs. Optebrower and her children retired Saturday night leaving a glowing fire in a stove in the rooms she occupies in a small house in the rear at the number mentioned. The oldest boy was awakened in the night to find the rooms full of coal gas and his mother very ill. The boy rushed out to the street and called for assistance. Patrolman Poland was notified and after a hasty examination he called the ambulance. Dr. Ives found the woman barely conscious and instructed Driver Burlison to rush the patient to the Bridgeport hospital. She improved rapidly at the hospital and soon was out of danger. The surthe establishment of a compromise geons at the hospital reported today that she was doing nicely and was out

The boys remained at the home on Lafayette street. They suffered no ill effects from the escaping gas. An investigation disclosed the fact that the pipe of the stove had been separated in some way and the gas from the brisk fire filled the room.
